

Our statement and policy with regards to COVID-19 Virus

We are happy to still be operating with our private lessons, clinics, and baseball activities. With the second wave of COVID-19, we have updated and added to our current health and safety procedures and protocols.

Going forward we have added the following to our precautions:

- Locking our doors – when arriving at the facility please call 705-424-7899 for entry – please call no more than 5 minutes before your sessions, as no one will be allowed to enter the building until that time.
- Everyone will be asked to wear masks for the duration of their time in the building – even while participating in sport.
- There will be a player/parent questionnaire check-in every time you enter the facility, along with having your temperature taken.
- We will be asking parents to wait outside while their child's programming is taking place.

All previous precautions will still be in place, these include:

- Asking all who enter the building to wash their hands upon arrival and all athletes to wash their hands before and after their session.
- Our coaches will be wearing face coverings and washing their hands frequently.
- Coaches will be washing baseball between each session.
- We will be cleaning and wiping down tables, chairs, door handles, and equipment between customers.
- Enforcing that you keep social distance while inside (stay at least 2m apart).
- Enforcing that face coverings be worn by all parents, guardians, and players at all times.
- Closing off the upstairs and two main washrooms to the public.
- The single use washroom in the lobby will be open for use.

We are asking the following of you:

- Please do not attend sessions at the facility if you are feeling unwell with symptoms of fever or cold.
- If you have travelled outside of Ontario in the last 14 days, please do not attend your session.
- If you have been in contact with anyone who tested positive for COVID-19, please do not enter the facility.
- Wash your hands with soap and water frequently and thoroughly. We request that you wash your hand upon entering the building and at your departure.
- Anyone entering the facility must be wearing a face covering (age and medical exemptions apply). Athletes must also be wearing their face coverings at all times, even during exercise.
- Social distancing – if inside the building please keep 2 meter distance from others.
- No outside food or drinks are permitted in the facility except for the athlete's water bottle.
- Athletes must bring their own equipment – bat, helmet, glove, etc.
- Athletes should wipe down their own equipment before and after coming to the facility.
- We ask that if you enter the building you wait until 2 minutes before your scheduled time.

Smith Brothers Baseball Central is still open but operating with the above precautions to minimize your risk.
