Our statement and policy with regards to COVID-19 Virus

We are happy to still be operating with our private lessons, clinics, and baseball activities. With the fourth wave of COVID-19, we have updated and added to our current health and safety procedures and protocols.

Going forward we have added the following to our precautions:

- Locking our doors – when arriving at the facility please call 705-424-0427 for entry – please call 5 minutes prior to your sessions to be screened and let into the building
- There will be a player/parent questionnaire check-in every time you enter the facility, along with having your temperature taken
- We will be asking parents to wait outside while their child's programming is taking place
- Following Ontario Government Guidelines and mandates, anyone 12 and older will have to show proof of full Covid-19 vaccination upon entering any facility space – unless a medical exemption is presented

All previous precautions will still be in place, these include:

- Asking all who enter the building to wash their hands upon arrival and all athletes to wash their hands before and after their session
- Our coaches will be wearing face coverings and washing their hands frequently
- Increased cleaning and sanitation of all equipment, door handles, and common spaces
- Enforcing that you keep social distance while inside (stay at least 2m apart)
- Enforcing face coverings be worn by all parents, guardians, and players where it is mandatory to do so
- Our single use washroom will be open and available for use

We are asking the following of you:

- Please do not attend sessions at the facility if you are feeling unwell with any signs or symptoms of Covid-19, or if someone in your household has signs or symptoms of covid
- If you have travelled outside of Canada in the last 14 days, please have proof of a negative PCR test available for viewing, or simply do not attend your session
- If you have been in contact with anyone who tested positive for COVID-19, please do not enter the facility
- Sanitize your hands frequently. We have sanitizer available for use at the facility
- Anyone entering the facility must be wearing a face covering (age and medical exemptions apply). Athletes may remove their face covering once on the field as long as social distancing is being respected and it is safe to do so
- Social distancing – if inside the building please keep 2meter distance from others
- No outside food or drinks are permitted in the facility except for the athlete's water bottle
- Athletes must bring their own equipment – bat, helmet, glove, etc.
- Athletes should wipe down their own equipment before and after coming to the facility
- We ask that if you enter the building you wait until 2 minutes before your scheduled time

Smith Brothers Baseball Central is still open but operating with the above precautions to minimize your risk.
